We have all receipts for oil changes done every 5,000km and maintenance work for your records.

This is a great city car and is fun to drive. We are only selling because I now have a company vehicle and don't need an extra vehicle. Always parked in the garage. This is a very reliable, safe and clean vehicle. If you have small children in car seats they easily fit in the backseat and the car is equipped with Universal Anchorage System (UAS), our daughter happily rode in the backseat and getting a bucket seat in and out is not a problem.

[Used Vehicle Review: Saturn Ion, 2003-2006](#)

General Motors launched its Saturn division in the early 1990s in an attempt to, uh, run rings around the imported models that dominated the compact car market at the time. But after two long generations, the only rings visible were the ones under the eyes of its first offering, the SL-series.

[First Drive: 2004 Saturn Ion Redline](#)

Click image to enlarge Story and photos by Laurance Yap St. Adele, Quebec - I've always felt a little guilty for not liking the Saturn Ion more than I do. It's fundamentally a nice-driving car wrapped underneath a skin that just doesn't appeal to...
